Name: Alexandra Guerrero

Source Analysis

Title: Current State Analysis

Author: Sonya Remington Doucette

Source Date: 2013-2017

Source Type: Text book

Author?

Context (what is important to note about the creator, when it was created, its audience, or its format?): _____

1 Molly wants to create a common ground for sustainability.
She is interested in how people's religion and beliefs can influence their action on sustainability.

Summary (what important facts about the source's content should we note for our discussion): _____

The system of classifying drivers. The different components of a problem. like people having a reason to believe something. The text book gives a small but good example that it's like a person driving they determine where the car is going.

other topics? correlation, causation, for example?

Analysis (what should we take away to better understand our problem and its stakeholders?): _____

That when the problem is defined and found as the book says Driver span many spatial scales. You have to be able to see the problem in large and small scales to have a better understanding the driver. The change that they are causing to the ecosystem.
