

FACT SHEET

ABOUT US

Since the 1994 release of the first PlayStation in Japan, Sony Interactive Entertainment has led the way in both entertainment and innovation. The business keeps providing advanced and thrilling experiences all around the world with its PlayStation goods and services. These include game titles that attract awards, hardware that defines a generation, and innovative network services.

VISION

PlayStation's values extend beyond mere gaming; they encompass the depth of emotions conveyed in games. The company values the dedication of individuals who invest years in refining and adding value to games, weaving narratives that resonate with players as if they were part of a compelling movie experience.

MISSION

PlayStation is dedicated to integrating gaming into the entertainment landscape, welcoming individuals from diverse backgrounds to join the excitement. It creates a home for gamers, aiming to make everyone feel included in the gaming journey. Despite the challenges in the world, PlayStation remains committed to delivering fun and joy to gamers worldwide through the immersive experience of playing games.
