Title: Centreville, Illinois: Flooding & Sewage Overflow

Author: The Guardian

Source Date: February 11, 2021

Source Type: News Article

Context (what is important to note about the creator, when it was created, its audience, or its format?): _____

The Guardian is a reputable news organization known for its investigative journalism. The article was published in early 2021, amidst ongoing environmental and infrastructure issues in Centreville, Illinois. The audience includes local residents, environmental activists, and policymakers.

Summary (what important facts about the source's content should we note for our discussion): _____

The article highlights severe flooding and sewage overflow problems in Centreville, Illinois. It discusses the impact on residents, including health risks, property damage, and the lack of adequate infrastructure. The report also underscores the insufficient response from local authorities and the ongoing struggles of the community. ✓

Analysis (what should we take away to better understand our problem and its stakeholders?): _____

The article underscores the urgent need for infrastructure improvements and better support from local government. It highlights the health and environmental risks faced by the community, emphasizing the importance of advocacy and action. Stakeholders include local residents, health officials, environmental agencies, and policymakers, all of whom play a role in addressing the problem and mitigating its impact.
