

A SAFE SPACE

Sa'Dae, Nikyra, JuJu, & Jada

WHAT DO WE CONSIDER A SAFE SPACE?

We consider the MUC as a safe space on campus because it gives you opportunity to mingle with friends, grab a bite to eat, or study, Whatever you choose to do between, before or class you can do in the MUC. It's a setting that produces a variety of communities with the college community; allowing a variety of students to come together and interact with one another. Not only is it a socializing space, but it's also a space where you can network with many organizations on campus, opening a door to new conversation & opportunities. All in all, the MUC allows you find a sense of comfortability and a piece of mind.

ENTRANCE TO COMFORTABILITY

One of many entrances to the MUC, but also the highlight and bustle of everyone day at SIUE. When you walk into this building, all of the stress that you've been carrying from the immense amount of workloads leaves is lifted from your shoulders and the only that you're thinking about in that moment is what you're going to eat or chatting with your friends.

With events and attractions 24/7 the
muc is a safe place where you can
meet, interact, and mingle. A place
that has something for everyone a
place that makes you feel like you
belong.

The Cafe which is all our favorite parts of the MUC, a diverse place with inclusion where you can mingle and be yourself. Talking too and being around ones who make you feel like family and included. Also a variety of restaurants. Students laugh, eat, and conversate. Making the MUC a safe place.
