

Interview Content Analysis Report Out

Objective:

This analysis examine themed from an interview conducted about the college experience.

Method

- Inducted thematic coding to identify the responses to my open-ended questions.
- Utilized semiotic analysis to signify repeated meaning, sayings, or words.

Theme 1: Community and belonging influences a student's experience.

Theme 2: College student prioritize personal growth regarding their future aspirations.

Theme 3: Cultivating a sense of independence which impacts their identity.

Implications:

As a collective there should be more discussion and conversations around the perspective of college students.

Moreover, universities and K-12 schools could work towards implementing programs that help high schoolers transition to college.
